NFPA 72-2010 Code Update Seminar Outline

Re-organized from 11 chapters to 29 chapters

Three new chapters:

- Circuits and Pathways
- Emergency Control Functions
- Emergency Communications Systems

Two new Annex:

- System Performance and Design Guide
- Intelligibility

New definitions

Removal of exception language

New transmission methods section

New personnel qualification requirements

Class and Style overhauled

New detector location and spacing requirements

New elevator code allowances

And much more ...

COURSE OBJECTIVES

This seminar reviews the significant changes made to the 2010 edition of NFPA 72, *National Fire Alarm and Signaling Code*. In addition to a complete re-organization of material, three new chapters and two new Annex were added. This course also includes a review of the Fire Alarm Wiring requirements established by NFPA 70-2008, *National Electrical Code*. A certificate of attendance good for 14 contact hours of continuing education is included. Participant must attend the entire seminar to receive the credit.

WHO SHOULD ATTEND
