

Automatic Fire Alarm Association

Understanding NFPA 101-2006 Fire Alarm Requirements

1-day Course Outline (7 hours)

Course Description

This seminar is beneficial for designers of fire alarm systems, project managers or lead installers responsible for fire alarm systems and authorities having jurisdiction responsible for fire alarm system plan review and/or acceptance testing. Discussions of general and specific requirements for fire alarm systems and practical exercises intended to improve the participant's knowledge of how to use the building/fire codes for determining fire alarm requirements. This seminar is based upon the 2006 edition of NFPA 101, *Life Safety Code*.

7 Contact Hours Continuing Education - Participant must attend entire seminar to receive credit.
