

# AFAA 's *New Fire Techs* of the Future Scholarship Program

A \$1,000 scholarship will be offered annually to one or more students currently studying fire alarm technology at a post-secondary institution. The scholarship is open to all students registered in a post-secondary associates degree or program equivalent with a concentration on fire alarm technology related courses. To apply, the student must submit a transcript of their academic grades and a letter application summarizing their current studies, extracurricular activities and involvement with and career plans in the fire alarm industry.

The **deadline** for submittal is January 1st.

Submit your application electronically to [admin@afaa.org](mailto:admin@afaa.org).

The scholarship winner will be selected by the AFAA Board of Directors annually in January.

*Interested in supporting the next generation? Contributions to grow the program from individuals or corporations are welcome. Please contact [admin@afaa.org](mailto:admin@afaa.org) to learn more.*
