

On-Line, Instructor Led Training

NICET Preparation, Level I & II Fire Alarm Systems

Based on NFPA 72-2019, NEC 2017, and IBC 2018

Tuesday, February 8th and Thursday, February 10th, 2022

and

Tuesday, February 15th and Thursday, February 17th, 2022

1:00 to 5:00 PM, EST on all four days

This 14-hour course will take an in-depth look into the codes and standards referenced by NICET for fire alarm certification. The course is designed for anyone considering or preparing to take a certification exam or simply seeking additional knowledge of the codes and standards governing fire alarm design, installation and general work practices. The interactive nature of the course delivery and practical exercises will improve participants knowledge of the use and application of NFPA 72, the NEC, and the building and fire code requirements for fire alarm systems. Instructor: Tom Parrish

NICET Prep, Level I & II for Fire Alarm Systems

Course Description

In this course, participants will take an in-depth look into the codes and standards referenced by NICET for fire alarm certification. The course is designed for anyone considering or preparing to take a certification exam or simply seeking additional knowledge of the codes and standards governing fire alarm design, installation and general work practices. The interactive nature of the course delivery and practical exercises will improve participants knowledge of the use and application of NFPA 72, the NEC, and the building and fire code requirements for fire alarm systems. In addition, attendees will have the opportunity to dialogue with instructors familiar with the certification and testing process.

Learning Objectives

At the conclusion of the course, participants will be able to:

- Understand the purpose, scope, structure, layout, and application of NFPA 72-2019, the NEC (2017 edition) and the 2018 edition of the International Building Code.
- Distinguish between codes and standards and how those differences apply to certification.
- Recall where to locate information within the codes and standards referenced by NICET.
- Recognize proper wiring methods as required by the NEC.
- Prepare simple shop drawings after assembling basic project information.

Course Length

14-hours total. 2-days in class, or 4-half days in a live, on-line delivery format
Students must attend entire class receive credit.

Course Outline

Day One or Part 1 & 2

Layout of NFPA 72
Fire alarm requirements from the NEC
Review of the NICET CBT process
"Post-quiz"

Day Two or Part 3 & 4

Introduction to codes vs. standards
Format of International Building Code
Changes between editions
General fire alarm requirements
Specific fire alarm requirements
Practical exercises

AFAA does not administer the NICET exam. You need to schedule this separately through NICET.
