

Tom Parrish joined Telgian in June 2000 and leads the organizations efforts on licensing and compliance, Various Training as well as special projects. He also manages the company's internal security and life safety programs at all Telgian facilities. Prior to joining the company, Mr. Parrish was a Lead fire alarm designer for TVA Fire and Life Safety where he assisted and facilitated training, provided vital supervision on alarm installation programs and field design of systems for high profile clients such as the Disney Corporation.

Mr. Parrish has over 25 years of experience in fire protection and emergency response. He has held positions with municipal fire, law enforcement and emergency medical services and in private sector systems design and installation programs. He maintains an active commitment to the profession as an on-call firefighter and is currently certified in firefighting, emergency medical treatment, weapons of mass destruction and hazardous materials response and dive operations.

Professional credentials include Level IV NICET certified fire alarm technician, current licensing as an alarm technician, Journeyman and Master electrician and Board certification as a Physical Security Professional by ASIS. Certified Fire Inspector level I and Certified Fire Protection Specialist from NFPA. Mr. Parrish earned a Bachelor of Science degree in Industrial Technology from Kean University. Mr. Parrish also serves on Nine NFPA technical committees including The National Fire Alarm and Signaling Code (NFPA72) both Chapter 24 Emergency communications systems and the Correlating committee and NFPA 3000.
